"After a stay in hospital, my Granny has recently arrived at Meadow's Court. The staff are incredibly professional, whilst also being friendly and approachable. The care that they give is of a very high standard. Food is lovely. The home is clean and comfortable. They have made the transition to a home, at an incredibly difficult time, very easy and straightforward. Granny has settled really well, and the rest of the family are pleased that she is safe and well looked after. Well done everyone!"

Yours Sincerely

"Our father has been a resident of Meadow's Court for 3 weeks now, the care he is receiving is excellent. He always looks well cared for and the room is always tidy. The food is excellent and is of a good choice. All staff are always friendly and approachable and often go beyond what is expected. They always make us feel at home during our visits, and nothing is too much trouble. Although this is very much early days for dad and us, we look forward to continuing with his long term stay and settling into his new home."

"It was better than the ones I have been to before and I liked it because there was a lot going on and there was our family here as more parts of the building being open. I even won first prize in the raffle which was nice (a bottle of rum) which I gave to my husband. He liked that."

"I didn't know what caring was about until I came here. A lot of carers go above and beyond their duty. Carers would bend over backwards just to allow residents to be happy."
